Forensic Science Society Essay Prize

The Council of the Forensic Science Society are pleased to announce an essay prize with a value of £200 sterling, plus ten forensic science books from Academic Press.

Academic Press, a leading publisher of academic and professional reference texts for forensic sciences is pleased to be able to present the winner with a selection of our best-selling forensic titles including: *Henry Lee's Crime Scene Handbook* by Lee, Palmbach and Miller, which provides a systematic approach to processing crime scenes; *Blood Dynamics* by Anita Wonder which covers every aspect of bloodstain analysis; *Mute Witnesses: Trace Evidence Analysis* edited by Houck who uses nine specific cases to show how trace evidence can tell the story of the crime; and *Criminal Profiling 2e* by Brent Turvey that includes a thorough rendering of the deductive profiling methods. To find out more about Academic Press's titles, and to read some free sample chapters please visit www.elsevierinternational.com/forensics.

Full book list:

Henry Lee's Crime Scene Handbook by Lee, Palmbach and Miller
Blood Dynamics by Anita Wonder
Mute Witnesses: Trace Evidence Analysis edited by Houck
Criminal Profiling 2e by Brent Turvey
Forensic Digital Imaging and Photography by Blitzer and Jacobia
Forensic Voice Identification by Hollien
Digital Evidence and Computer Crime by Casey
Handbook of Computer Crime Investigation by Casey
Handbook of Polygraph Testing by Kleiner
Effective Interviewing and Interrogation Techniques by Gordon and Fleisher

The competition is open to:

Any student studying either full time or part time on a graduating course at a recognised institute of higher education based anywhere in the world. The courses should include a course of at least two credits duration, equivalent to 40 hours of lectures, on the subject of forensic science.

The student must be in the penultimate or final year of their studies when the essay is submitted. The essay must be in English and the most meritorious submission will be published in *Science & Justice*, the *Journal of The Forensic Science Society*.

The closing date for submission of entries is 31 March 2003. The essays will be assessed by an augmented panel of the Professional Awards Committee of the Forensic Science Society. The decision of the Council of the Society with regard to the award will be final.

The topic for submission is:

'Discuss the proposition that the effective use of forensic science means that absence of evidence is not necessarily evidence of absence.'

Discuss this statement in 5000–7000 words.

The essay must be accompanied by:

- a copy of the student's registration document
- a course outline showing the course hours devoted to forensic science, and an outline of the forensic science content of these lectures
- a certificate signed by the student and his/her course tutor confirming the work is that of the student submitting the essay.

Entries should be sent to (the envelope marked 'Essay Prize' on the outside):
